2020 Landscape Art Summer Cloud Camp**

Dr. Junrui Garcia

Landscape is a topic makes young artists exciting. However COVID-19 forced the well planned Landscape Art - 2020 Summer Camp turn into a cloud camp. All the teaching and painting activities went through internet.

Thank all the great parents! With these parents' wonderful facilitating and strong supporting, eight young artists have made great effort to complete every single piece of artwork.

This cloud summer camp covered basic introduction of landscape art including composition, water, rocks, mountains, buildings. Each young artist has painted 8 to 12 pieces of landscape art.

We are proud to publish most of their artworks in this volume.
